Thank you. I noticed you listed Royalwood Mud as okay. When I went in the system it looks like they had an onsite yesterday and they listed it as partially operating. I am not sure why.

hi Katie,

Please let me know if you have any questions.

If we get the systems updated in the system it is more likely they will not receive a site visit if it was not affected.

Hi James,

I hope your day is going well. I appreciate your time. I am sending an updated spread sheet that will make your response less time consuming. The attached excel spreadsheet has tabs with the names of each of the 10 systems and the tabs at the beginning have codes. The updated spreadsheet has Mud 82 which was not listed in the first email.

Have a great day,

Please let me know if you have any questions.
